### ABOUT ME

I am extremely passionate about the fields of Frontend development, UI/UX design & development. Through a combination of academic learning and work experience, I have honed my skills and expertise in these areas, and I am continually seeking opportunities to further develop my knowledge.

Furthermore, I have completed numerous freelance projects on UI/UX design & development, which have exposed me to diverse industries and business types, providing me with invaluable experience and insights into real-world challenges.

### EXPERIENCE

#### ENGINEER

**September 2022  
- August 2023**

*Tata Elxsi | Pune, Maharashtra*

- Created and implented electrical architecture for the vehicles using vector PREEvision tool
- Supported on the customization of the PREEvision application using Java
- Got a strong knowledge in the system engineering and model based developing

## FRONTEND DEVELOPER & UI/UX DESIGNER

May 2023 -  
July 2023

*Klashra Tours & Travels* | Dubai, Remote

- As a frontend developer and UI/UX designer for Klashra my role was to create an engaging userfriendly online platform for travelers worldwide, for the destinations located at Dubai
- Created wireframes, mockups, and interactive prototypes to communicate design concepts effectively using Figma.
- Applied user-centered design principles to craft intuitive and visually appealing interfaces
- Implemented responsive and interactive user interfaces using ReactJs ,HTML,Bootstrap CSS and Javascript
- Created especially the card components for the website frontend development in ReactJs Link for the frontend :<https://earnest-madeleine-e4b5c0.netlify.app/>
- Link for the UI/UX prototype : <https://www.figma.com/file/uAZSZjAf5JOFK8ucaT8bzu/klashra?type=design&node-id=58%3A2&mode=design&t=dDP9OG4rB0FaVD3F-1>

## UI/UX DESIGNER

June 2021 -  
September 2021

*QIB Logistics Inc* | Freelance

- Created the wireframe, prototype and mockup of the web application using AdobeXd
- QIB logistics was primarily focused on creating a website for providing seamless transportation, dispatching, import/export using trucks

## FRONTEND DEVELOPER & UI/UX DESIGN INTERN

July 2019 -  
February 2020

*Infospica* | Remote

- As an UI/UX designer for CETROOTS, a non profit organization focused on alumni connections, my role was to help create an engaging and user-friendly platform that would allow alumni to connect and assist each other in their job searches.
- Working on Figma, I utilized my design and flow creation skills to create intuitive interfaces that would enhance the user experience of our platform.
- Working on ReactJs, I learned to employ modular and reusable code practices to enhance maintainability of the website.
- Similar to LinkedIn, this platform provided a space for alumni to connect, share job postings, and provide feedback and support to one another. Through my UI/UX design work, I helped to ensure that the platform was visually appealing, easy to navigate, and intuitive to use, ultimately enhancing the user experience and driving engagement with the platform.
